July 2001

The *State Motorcycle Program Survey* is a comprehensive compilation of information concerning state-legislated motorcycle safety programs. The SMSA was established in 1984 as a forum for the exchange of information and ideas among state sponsored motorcycle rider training programs. This *Survey* is a result of the commitment of the SMSA membership to work together to improve motorcycle safety and thus enhance the quality of riding.

There is little, if any, doubt about the need to improve and expand motorcycle safety programs. The individuals and organizations which make up the SMSA work together to make a difference. SMSA members are the ones who actually manage and conduct most rider safety programs at the state level. Our members work closely with interested professional and corporate organizations and with dedicated instructors to make motorcycle riding a safer and more enjoyable experience.

The Association recommends and is happy to make the *Survey* available to anyone truly interested in motorcycle safety programs. Feedback from those who use this *Survey* is encouraged to help the SMSA continue to meet the needs and address areas of interest to those involved or interested in motorcycle safety.

We extend our thanks to all who have contributed to the accomplishments reflected in this document. We have done great in the past and expect to do better in the future.

Sincerely,

A handwritten signature in black ink, appearing to read 'Albert F. Thornton'. The signature is fluid and cursive, with a large loop at the end.

ALBERT F. THORNTON  
Chairperson

## C - LICENSING INFORMATION

### Does your state licensing program interface with your rider education program?

ARIZONA	Commercial schools & community colleges report monthly to MVD.
CALIFORNIA	Waiver of skill test.
COLORADO	License office uses rider ed instructors to train examiners.
CONNECTICUT	One & the same.
DELAWARE	We are a team working together. Education and Licensing.
FLORIDA	One and the same.
GEORGIA	Same agency administers both.
HAWAII	We do not have a state licensing agency.
IDAHO	By law, we cooperate. SDE is responsible for content of tests and training. Transportation Department is responsible for contracting and administration.
ILLINOIS	Course promotion at licensing facilities. Flyer with annual registration renewal. They handle the collection and transfer of program fees.
INDIANA	We assist each other when problems arise in the field; with mutually affecting legislative issues; and in attempts to improve the licensing system. Communication is generally direct between motorcycle program coordinator and deputy director for licensing in the BMV.
IOWA	Rider education programs issue certificate of completion to successful students. Students present certificate to licensing agency. The skill test is waived, unless instructor indicated a need to test or their birthday falls on one of three preselected dates.
KANSAS	Excellent.
MASSACHUSETTS	One of our site coordinators issues to the graduates of all state-approved training sites a certificate, used with the MSF Course Completion Card, to earn exemption from the RMV m/c license road test and related fee.
MINNESOTA	The Minnesota Department of Public Safety's Division of Driver and Vehicle Services (DVS) is responsible for licensing in the state. DVS applies annually for funding through the Department's Office of Traffic which administers the state's motorcycle safety program. The funding is utilized to conduct extended evening skill testing hours, reprint the motorcycle operator's manual, and to update license examiners on motorcycle testing related items. DVS is also responsible for licensing instructors and commercial driving schools (the rider training contractor is required to be a commercial driving school or higher education institution). The rider training project has a strong working relationship with key DVS personnel.
MISSOURI	Work closely with DMV because of skill test waiver.
MONTANA	Licensing Bureau Chief is a member of the Montana Motorcycle Safety Advisory Committee. Licensing information provided in MMRS promotional materials, and motorcycle safety promotional materials included in licensing manuals. State program provides assistance and training to driver license examiners.
NEVADA	State CF's Train Motorcycle examiners assist in laying out testing sites conduct refresher training
NEW HAMPSHIRE	We work together but are separate in responsibilities.
NEW MEXICO	Separate agencies - TSB vs. MVD. Work cooperatively, exchange information, etc.
NEW YORK	DMV has approved the MANYS as a course sponsor for the road test waiver and Point and Insurance Reduction Program benefits. Under a 5 year contract with DMV, MANYS administers the State's Motorcycle Safety Program, including rider education and public information.
NORTH CAROLINA	DMV promotes program and accepts skills waivers for grads
OHIO	Very cooperative relationship. Lines of communication are open and all department/sections work together to benefit the citizens of Ohio.
OREGON	At invitation of DMV, TEAM OREGON provides Examiner Training services. We also provide demo riders for other DMV training events. DMV posts TEAM OREGON literature in all field offices.
PENNSYLVANIA	A strong partnership with open lines of communication used on a daily basis.
TENNESSEE	The Rider Education Program has a wonderful relationship with the licensing agency. We currently are working with the licensing agency to upgrade the motorcycle licensing system.
TEXAS	The Motorcycle Safety Unit staff members work together with those responsible for the Department's Driver License program to establish the riding test waiver.
UTAH	Driver License Division is responsible for the daily conduct of the Motorcycle Rider Training Program. All training and related actions are closely coordinated with DLD prior to initiation.
VERMONT	DMV licensing runs Rider Program. Work well together. We benefit each other.
VIRGINIA	The VA program in the DMV
WASHINGTON	Is located within the Department of Licensing.
