

The National Association of State Motorcycle Safety Administrators (SMSA) was established in 1984 as a forum for the exchange of information among state-sponsored motorcycle education programs.

Our network and safety messages reach over 150 RiderCoach Trainers, 5,500 RiderCoaches and 200,000 students annually.

SMSA is administered by an Executive Committee comprised of the Chairperson, three Regional Representatives, three At-Large State Representatives, one Supporting Member Representative and one Individual Member Representative.

Three SMSA Committees address specific projects:

- Communications and Membership
- Motorcycle Safety Programs
- Policy and Planning

The National Association of State Motorcycle Safety Administrators (SMSA) is comprised of individuals and organizations working to make a difference. We are the people who coordinate the safety programs at the state and local level joined by other professional organizations, corporations, instructors, and other individuals in efforts to make motorcycle riding a safer and more enjoyable experience.

The members and Executive Committee of the SMSA bring together the talents of a nationwide network of motorcycle safety professionals to display and share information concerning: events, proclamations, press releases, graphic materials, as well as video and audio public service announcements that highlight motorcycle awareness.
