"Low Down on the High Side" power point

Greetings all,

There was interest from some who attended the presentation I did at the SMSA Conference regarding EMS response to motorcycle crashes.

As I am now set up in my office, I can email that out to anyone who is interested (for informational purposes only)

Please contact me direct and I will provide the power point as soon as possible

Ken

Good Morning all,

Below is the link to access the presentation I gave at the SMSA Conference.
Let me know if there are issues accessing the file.

Please use for information only, as there is some Virginia specific information in the presentation.

Best regards,

Ken
