### **3WBRC Compact Range layout guide**

Good morning, Several people have asked me for a copy of the "layout guide" one of our coaches created to accompany the new "3WBRC Compact Range" materials available from MSF. We are using it to layout the trike course on a 60' X 170' range (not incl safety runoff) and it's been very effective. The guide is attached for your use if needed. Also, if anyone has similar tools or layouts for other alternate range sizes I'd be grateful for a copy.
