FW: MOTORCYCLE SAFETY IN KENYA- Request for Expert Support

Has anyone else received this email?

MARYLAND

Despina,
I have. I forwarded it to Ken Glaser with the MSF. I was contacted once by someone from Africa about training them as a RiderCoach.

Hey, Despina
I had received the same item as Phil Sause and did the same thing. I did a quick Google of Mr. Talam's email and got a hit at Face book for Young Farmer's Market. Someone with this email is looking for info on strawberry farming:
"Isaac Talam *posted to* [Young Farmers Market July 9, 2013](#)
Hi, kindly give me information on strawberry farming if you have any. I will be very grateful, and if you have any referrals for further advice within Eldoret. my email is zactalam@gmail.com"

I won't worry about it then. I just didn't want to ignore a legitimate request for information. Thank you all!

NORTH CAROLINA

I did... I haven't done anything with it as yet... I thought that, if it is authentic, that the MSF would be his best source for materials and help... I can't help much from the state level... Glad to see that I'm not alone...
