PSA

Virginia has made a Motorcycle PSA about the speed perception of motorcycles.

If anyone would like to use it below is the information of how to get the file to put your tags on it.

The Second Look spot has been modified and may now be tagged by anyone.

We've also glinted out the Virginia plates so it's difficult for the viewer (or other airing states) to discern the spot's origin <-usually what they request.

The broadcast-ready file is bigger (at 108 mb) than email will allow, so it's up on the "We Transfer" site and will remain available for download for 5 more days.

Bruce shoots, he scores! Good job.

The best part was the rider was in full PPE. The second best was he was on a H-D.

Rock on.
